innofleece

Innovative with Acryluna technology,
Animal-friendly collection with its innocent choices...

The right choices are in your hands with the brand new collection of Acryluna, Innofleece, which aims to prevent cruelty against animals...

Those soft, stylish and warm products that you love so much no longer have to bring burden for any living creature. With Innofleece, innocent and soft as nature, none of the living creatures will be exposed to maltreatment for their fibers, while you enjoy the comfort. With Innofleece, all the features you expect from an outfit will be with you based on innocent choices.

SOFT AND
LIGHT

ANIMAL
FRIENDLY

Preferring animal-friendly products...

Many people who are sensitive to preventing animal maltreatment refrain from buying products that contain these fibers and call others for not buying such products. Being aware of our responsibilities, we have created our Innofleece collection with innovative solutions supported by technology. For animals like **angora, alpaca and mohair** which may seen as fiber source, we invite you to say 'Animals are not clothes!'

WARM

Inspired by nature with its innovative technology
Always feel warm and cozy with Innofleece
combining the inspiration from the nature and
the innovative technology!..
